## TECHNICAL SKILLS & TOOLS

**Languages:** JavaScript (ES5/ES6), TypeScript, Node.js, CSS3, SCSS, HTML5

**Frameworks & Database:** React, Next.js, React Native, jQuery, Express, PostgreSQL, Nest.js, Prisma

**Tools:** Git, GitHub, Vercel, Figma, Tailwind CSS, Bootstrap, Adobe, Jest, HubSpot, AWS, Lighthouse, Vite, Wordpress, Wix, Contentful CMS, Google Firebase, Postman, Squarespace, Android Studio, Visual Studio Code

## PROFESSIONAL EXPERIENCE

**Software Engineer**, Quantiiv (Contract)

May 2025 – Aug 2025

- Built an accessible marketing site featuring a **WCAG-compliant** hero video, responsive headers, and clear CTAs, using semantic **HTML** and **ARIA** roles to ensure usability across devices and assistive technologies.
- Integrated **WordPress** as a headless content management system using the **WordPress API**, enabling the Quantiiv team to publish blog content in support of their long-term content strategy and delivered ahead of schedule.

**Software Engineer**, Great Harvest Franchise (Contract)

Mar 2025 – June 2025

- Revamped Great Harvest's franchise site, transforming an outdated tab into a fully responsive marketing page with **Next.js**, **TypeScript**, and **HubSpot** form integration, enhancing site functionality and supporting franchise growth.
- Attracted 17 qualified franchise prospects across the United States within 30 days of launch, supporting Great Harvest's expansion into new markets through a high-converting digital presence.

**Software Engineer**, Nemonx (Contract)

Feb 2025 – June 2025

- Refactored Nemonx's resume builder using **React.js**, **Nest.js**, and **Prisma** by adding new UI elements, updating backend endpoints for dynamic data handling, and resolving a critical bug that was preventing resume generation.
- Shipped 5 new resume templates that doubled design variety and significantly enhanced the student user experience.

**Software Engineer Intern**, ConvertClick Digital Analytics

Nov 2024 – May 2025

- Developed a voting page for FavAnswer by integrating user account data for gaming interactions and initiated development using **React Native**, leveraging **Firebase** to connect back-end data with the front-end experience.

**Software Engineer**, ManMarketing / MyJulia (Contract)

Nov 2024 – Jan 2025

- Improved MyJulia's **website performance by 15%** through image compression and code refinement, enhancing load times and user experience, and tested performance with **Lighthouse** under contract with ManMarketing.

**Software Engineer**, Advanced Building Services (Contract)

Aug 2024 – Oct 2024

- Constructed a tailored user interface for Advanced Building Services' landing page, improving **user engagement** and attracting **300+ unique visitors** in the first month, with positive feedback on usability and functionality.

## PERSONAL PROJECTS

**Devan's Portfolio** – [Live](#) | [GitHub](#)

- Built personal showcase web application with **Next.js SSR** to optimize performance, integrating scrolling animations and custom theme toggling with accessible navigation using **Tailwind CSS** and **semantic HTML**, hosted on **Vercel**.

**Book Palace** – [Live](#) | [GitHub](#)

- Architected and deployed full-stack e-commerce app on **AWS** with a **React** frontend and **Express/PostgreSQL** backend **RESTful API**, implementing cart management and user wishlist functionality

## EDUCATION

**Full Stack Web Development Program**, LearningFuze – Irvine, CA

Jun 2023

**Bachelor of Arts Degree in Psychology**, University of California, Irvine – Irvine, CA

Jun 2020
