Devan Rivera

Front-End Engineer

devanrivera98@gmail.com   562-457-7440   LinkedIn   GitHub   Portfolio

TECHNICAL SKILLS & TOOLS

Languages: JavaScript (ES5/ES6), TypeScript, Node.js, CSS3, SCSS, HTML5

Frameworks & Database: React, Next.js, React Native, Tailwind CSS, Bootstrap, jQuery, Express, PostgreSQL

Tools: Git, GitHub, Vercel, Figma, Adobe Express, Jest, Lighthouse, Vite, Contentful, Google Firebase, EmailJS, SendGrid, Caspio, Postman, Expo Go, Squarespace, Slack, Wix, Babel, Chrome Dev Tools, Netlify, Visual Studio Code, ESLint, npm

APPLICATIONS DEVELOPED

Advanced Building Services – Live | GitHub
- Developed a comprehensive and user-centric web application for an HVAC company with **React**, **TypeScript**, **Tailwind CSS**, and **EmailJS** to enhance online interaction and simplify customer service outreach.

Devan's Portfolio – Live | GitHub
- Built a personal showcase web application with **Next.js** server-side rendering (SSR) to optimize performance, integrating scrolling animations and **Next.js Theme Provider** for improved UI accessibility, hosted on **Vercel**.

Book Palace – Live | GitHub
- Engineered a responsive, visually compelling front-end with **React** for an interactive user experience across devices, and developed a **RESTful API** with **Express** to enable communication between the front-end and **PostgreSQL** database, optimizing data retrieval for features like cart management and user wishlists.

Anytime Promotion – Live | GitHub
- Designed an interactive promotion platform for an entertainment company using **React**, **TypeScript**, and **Tailwind CSS**, integrating **Caspio** and **Netlify** to streamline submissions and boost user engagement.

PROFESSIONAL EXPERIENCE

Web Developer Intern (Team Lead), ConvertClick Digital Analytics – Remote   Nov 2024 – Present
- Developed a voting page for FavAnswer by integrating user account data for gaming interactions and initiated ongoing development using React Native on **Expo Go**, leveraging **Firebase** to connect back-end data with the front-end experience.
- Identified and resolved development blockers in team meetings, optimizing workflows, improving team productivity, and ensuring consistent project progress using Agile methodologies and collaboration tools, including **Slack**.

Front-End Engineer, Freelance – La Mirada, CA   Jul 2023 – Present
- Constructed a tailored user interface for Advanced Building Services' landing page, improving **user engagement** and attracting **300+ unique visitors** in the first month, with positive feedback on usability and functionality.
- Optimized MyJulia's **website performance speed** by **15%** through image compression and code refinement, enhancing load times and user experience under contract with ManMarketing.
- Architected and deployed a web application for Anytime Promotion with a focus on meeting **business objectives**, resulting in a **30% increase** in website visitor engagement and inquiries throughout the site.
- Improved user experience and functionality for Emagine Mobile by modernizing interfaces with **JavaScript**, **HTML5**, and **CSS3**, enhancing navigation, visual appeal, and interactivity for better user engagement.

EDUCATION

Full Immersion Web Development Program, LearningFuze – Irvine, CA   May 2023
Bachelor of Arts Degree in Psychology, University of California, Irvine – Irvine, CA   Jun 2020
